

Hello, my name is Sheuli  
Molla. I was born in New  
York and I am the world.

Three adjectives others  
might use to describe me  
are **resourceful**, **curious** and  
**eccentric**.

My favorite color is **gold**, my  
favorite animal is **a giraffe**,  
and my favorite  
musician/band is **Grimes**.

In my free time I like to do  
yoga, explore, and  
volunteer.

If I could go anywhere, I  
would go to **everywhere**  
because I'd love to see the  
world.

I am most worried about  
worrying.

I am most proud of my  
cactus.

My favorite thing about  
myself is my panache.

When I was a kid, I wanted  
to be a lawyer.

I usually wake up at 6 am,  
and go to sleep by 11 pm.

I went to Riverhead for high school and Stony Brook University for college, where I majored in Marine Sciences.

The most interesting topics  
I've learned about are  
**ecology and oceanography.**

Currently, I am a consulting  
scientist.

I enrolled in this class  
because I want to learn how  
to connect the dots.

My experience with data  
analysis **is sparse.**

I learn best when immersed.

I am most excited about  
learning about data vis  
because I like design.

After this class, I hope to be  
somewhat proficient in  
coding.

My dream job is professional  
traveler.

The philosophy I live my life  
by is pretend stoicism.

# The end
